

**6th International Conference
'Crossroads of Languages and
Cultures (CLC6):
Plurilingualism, Variation, Spaces of
Literacy.**

The 6th International Conference 'Crossroads of Languages and Cultures' (CLC 6) will take place online between September 2 and September 4 2021. The main theme of CLC6 is the charting of the relationship between plurilingualism, linguistic variation, hybrid linguistic performances and alternative literacies. The hybridity and superdiversity of the contemporary linguistic landscape has been long acknowledged. Do language pedagogies treat language as a complex semiotic resource? Do such pedagogies forge links between pluri- or multilingualism, linguistic variation, translanguaging and alternative literacy practices within and outside of the school context? Do such extant models ultimately debunk dominant literacy policies and practices?

Keynote speakers:

Professor Ofelia García,

City University of New York

Professor Clare Mar-Molinero,

University of Southampton

Proferror Eleni Skourtou,

University of the Aegean
